

Berker B.IQ

A wide array of alternative materials and colours have been added to the convenient variety of KNX functionality of the Berker B.IQ.

- Frameless KNX push-button sensors with full-material rockers (glass, stainless steel and aluminium)
- High scope of functions in the KNX applications through to devices with integrated thermostats
- The attractive appearance is rounded off using white status LEDs and a blue operation LED.
- Suitable variants for all materials and colours of sockets in the Berker B.7 switch programme. Available materials: plastic and glass in polar white, black and aluminium. Metal variants in aluminium and stainless steel
